

Start Right!

Beginning Strings Camp

August 1 - 5, 2022 • 9:30 a.m. - Noon • *mini-recital Friday 11:30am*

Is your child entering 5th or 6th grade, and interested in playing in strings in middle school? This summer, Musical Innovations is offering a music summer camp experience for your child that will combine two of your child's favorite things — **MUSIC & FUN!**

Start Right! Beginning Strings Camp will give future musicians a chance to hear and play all the instruments available in beginning strings class, and will help them choose which ones are just right for them!

Students will be introduced to the instruments in the string family. Once students have chosen an instrument, they will be taught the fundamentals of assembling their instrument, posture, plus a few first notes. They will enjoy both small group lessons, and full-ensemble experiences.

Other topics studied will include basic music theory, musical terms and symbols, and basic performance

etiquette. All aspects of the camp will be taught by professional musicians with experience in school music.

By Friday morning, our future musicians will be ready for their first concert, a fun demonstration of what they've learned for family and friends!

Space is limited, so sign up now to reserve your child's place!

Cost:
\$75 per child
(includes use of instruments, music, and all supplies)

ALL participants will receive coupons for discounts at Musical Innovations this fall!
